

AI, SaaS & Growth Systems

BRAND GUIDELINES 2026

BlueFlow Identity System

A clean, scalable visual system for Vistrow Technologies - built around Vision + Growth + Workflow, with a blue-to-cyan technology palette and a modern Inter-based typography system.

Brand Foundation

Vistrow = Vision + Growth + Workflow

Vistrow is a growth systems company that connects marketing, CRM, AI calling, SaaS products, automation workflows, and analytics into one intelligent business engine.

Vision

Clarity, direction, visibility, and strategic focus.

Growth

Measurable business progress, revenue movement, and scaling.

Workflow

Connected systems, automation, process, and intelligent execution.

Brand Personality

- Modern and product-led, not a typical digital marketing agency.
- Trustworthy, clean, intelligent, calm, and growth-focused.
- Simple SaaS language with clear business outcomes.
- Premium but approachable for Indian SMBs, real estate, agencies, and sales teams.

Logo System

VISTROW

AI, SaaS & Growth Systems

Primary Logo Rules

- Use the gradient Flow Cut V as the primary symbol.
- Use the full lockup only where space allows: website header, presentation cover, proposals, PDF reports.
- Use icon-only for favicon, social profile, app tiles, CRM UI, and small placements.
- Keep enough breathing space around the icon and wordmark.

Meaning of the Mark

- The V stands for Vistrow and Vision.
- The internal white flow cut represents connected workflow.
- The upward motion represents growth and forward movement.
- The blue-to-cyan gradient represents intelligent technology flow.

Usage Ratio

Use mostly White / Ice Background, then Navy for trust and structure, with Cyan/Blue as the energetic technology layer. Avoid making the whole brand dark or overly neon.

Gradient System

Primary Brand Gradient

#03045E -> #0077B6 -> #00B4D8

Use on the V icon, hero glow, primary visual accents, and selected UI highlights.

Light Surface Gradient

#CAF0F8 -> #FFFFFF -> #90E0EF

Use for website hero sections, proposal backgrounds, social media templates, and card surfaces.

Dark Premium Gradient

#03045E -> #07111F

Use for footer, dark cards, reverse logo backgrounds, and presentation dividers.

CTA Gradient

#0077B6 -> #00B4D8

Use sparingly for primary action buttons, product badges, and active states.

Typography System

Inter Display

Use for hero headlines, page titles, section headings, and major brand statements.

Inter

Use for body copy, navigation, buttons, cards, UI labels, forms, and website content.

Noto Sans Mono / Mono

Use only for code snippets, color codes, metrics, dashboard labels, and technical annotations.

Recommended Type Hierarchy

Use	Font	Size	Color
Hero H1	Inter Display Bold	56-72 px / 1.05	Deep Navy #03045E
Page H1	Inter Display Bold	44-56 px / 1.1	Deep Navy #03045E
Section H2	Inter Display SemiBold	32-40 px / 1.15	Dark Text #07111F
Body	Inter Regular	16-18 px / 1.55	Dark Text #07111F
Small UI	Inter Medium	12-14 px / 1.35	Slate Text #536172
Buttons	Inter SemiBold	14-16 px	Navy or White

Logo Usage Rules

Clear Space

Keep minimum clear space equal to the width of the inner flow cut around the icon or full lockup.

Minimum Size

Digital favicon: 32px minimum.
Website header icon: 28px minimum. Full lockup: 140px minimum width.

Backgrounds

Use gradient icon on white or ice backgrounds. Use white icon on navy for dark sections.

Do Not

- Do not rotate or stretch the V mark.
- Do not add shadows, outlines, extra dots, arrows, or orbit rings.
- Do not change the gradient direction randomly.
- Do not place the gradient logo on busy photos without a clean tile.
- Do not use tagline in very small placements.

Approved Versions

Primary

Gradient icon + navy wordmark

Solid

Full navy for print or simple UI

Reverse

White logo on navy background

App icon

Gradient or white icon inside rounded square

Website & UI Direction

Clean SaaS + Soft Gradients + Dashboard Cards

Vistrow should look like a technology ecosystem, not a normal agency website. Use white cards, blue/cyan gradients, intelligent UI components, CRM/AI dashboard visuals, and clean product-led sections.

Leads Captured

1,284

AI Calls

362

Conversion

18.4%

Design Rules

- Use generous spacing, large rounded cards, and simple iconography.
- Use subtle cyan glows behind hero dashboards and product mockups.
- Use gradients as atmosphere, not as decoration everywhere.
- Use data cards, pipeline visuals, automation flows, and product UI as brand assets.

Avoid

- Dark crypto-style websites with neon overload.
- Random AI brain, circuit, or robot visuals.
- Generic stock photos as primary brand visuals.
- Too many colors beyond the approved palette.

CTA Button Style

Book a Growth Audit

Explore Ecosystem

Primary CTAs use System Blue or CTA Gradient. Secondary CTAs use white fill with blue/navy border.

Imagery & Social System

Visual Language

- Use clean gradient backgrounds from Ice Background to White and Soft Sky.
- Use product UI, CRM dashboards, workflow diagrams, analytics cards, and app icon tiles.
- Use realistic office/product mockups only when the logo needs context.
- Keep social posts simple: one strong headline, one dashboard/product visual, one CTA.

Application Checklist

Website Header

Use icon + VISTROW wordmark. Do not use tagline in sticky nav.

Hero Section

Use full lockup or wordmark with tagline. Add BlueFlow gradient background.

Favicon

Use icon-only, preferably solid navy or gradient on white tile.

Social Profile

Use app icon tile with centered Flow Cut V. No tagline.

Proposal / PDF

Use full lockup on cover. Use page footer with wordmark or icon.

CRM / App UI

Use icon-only in sidebar. Use Inter for all UI labels.

Ads / Creatives

Use bold headline, white cards, and CTA in System Blue.

Dark Sections

Use white/reverse icon and white wordmark on navy gradient.

Copy & Brand Voice

Growth Systems for Modern Businesses

This is the best simple brand line for Vistrow. It explains the company without limiting it to digital marketing, SaaS development, CRM, or AI calling alone.

Primary Messaging

ONE-LINE DESCRIPTION	Vistrow builds intelligent growth systems that connect marketing, CRM, AI calling, SaaS pro
HOMEPAGE HEADLINE	Build your business growth system with Vistrow.
CTA	Book a Growth Audit
TAGLINE	AI, SaaS & Growth Systems

Tone Rules

- Speak in outcomes: capture, manage, automate, convert, scale.
- Avoid vague agency lines like "we grow your brand online".
- Use simple SaaS language, not heavy technical jargon.
- Always connect marketing to CRM, follow-up, automation, and measurable growth.

Quick Reference

Primary Palette #03045E / #0077B6 / #00B4D8 / #CAF0F8 / #FFFFFF

Primary Font Inter Display for headings, Inter for body and UI
